Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Specification

1. The first sentence of the specification, as added in the preliminary amendment filed 08 October 2003 is objected to as falsely stating that 09/311,728 was filed in 29 October 1997, whereas it was filed 16 August 1999. The following first sentence is suggested:

This application is a divisional of Application No. 09/810,491, filed 19 March 2001, now Patent No. 6,649,058, which is divisional of Application No. 09/331,728, filed 16 August 1999, now Patent No. 6,258,271, which was the National Stage of International Application No. PCT/FR98/02310, filed 28 October 1998.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 29 rejected under 35 U.S.C. 102(b) as being anticipated by Shaw et al. (US 3,764,018). Shaw ('018) discloses a fluid treatment module comprising at least two (see col. 2, lines 48-51) hollow membranes (1), each including two support layers (9) and a plurality of capillary tubes (8) arranged between the support layers and each having an opening at the level of each support layer in such a way as to form capillary channels for the flow of a first fluid, the space between the capillary tubes and the two support layers forming an internal cavity for circulation of a second fluid around the

Art Unit: 1723

capillary tubes, the two support layers and the capillary tubes being constituted by an organic polymer (see col. 3, line 49 to col. 4, line 46), wherein said hollow membranes are arranged within a sealed enclosure (10) in such a way as to provide between at least one side of said hollow membranes and an adjacent side wall of the enclosure, spaces for the circulation of the first fluid uniquely in communication with the inside of the capillary tubes of the hollow membranes; means for circulating said first fluid in the capillary tubes of the hollow membranes by introducing said first fluid (A) in to at least one of said circulation spaces and by collecting said first fluid in another of said circulation spaces; and means for circulating said second fluid (B) in the internal cavity of the hollow membranes.

Allowable Subject Matter

4. Claims 30-45 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments are moot in view of the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
